

It is best to change the filter on the ORM Discharge Reconciliation to Expand Medications.
Below is an example before the filter is changed.

Reconcile Orders View/Maintain History

Group Sort By

- Expand Medications
- Show Best Matching Medication
- Collapse Empty Categories

Order Entry Requested By Enter Home Enter Prescription Medication

Reconciliation Type: Discharge requested on behalf of SCM, MD General01; New orders will be i

ITEMS TO RECONCILE (0 of 17 reconciled)

- analgesics (central nervous system agents) (0/2 reconciled)
 - acetaminophen-HYDROcodone Home and Inpatient
- anticonvulsants (central nervous system agents) (0/1 reconciled)
 - gabapentin - orally Home
- antidepressants (psychotherapeutic agents) (0/2 reconciled)
 - PARoxetine Home and Inpatient
- antidiabetic agents (metabolic agents) (0/2 reconciled)

 - gabapentin - orally Home
- antidepressants (psychotherapeutic agents) (0/2 reconciled)
 - Paxil 40 mg oral tablet - 1 tab(s) orally once a day Home

Above is an example of the meds expanded.

It is best to change the Group/Sort By filter to Therapeutic Category before starting an ORM.

The screenshot shows a software interface for reconciling orders. At the top, there are two tabs: "Reconcile Orders" and "View/Maintain History". Below the tabs is a toolbar with several icons. A red box highlights the "Group/Sort By" filter icon, and a blue arrow points from the text above to this icon. A dropdown menu is open, showing the selected filter: "Therapeutic Category/Name, Date Time". Below the filter menu, there is a text field with the value "Name, Date Time". The main area of the interface displays a list of medications, grouped by therapeutic category. The categories and their respective medications are:

- HOME MEDICATIONS (0 of 9 reconciled)**
 - analgesics (central nervous system agents) (0/1 reconciled)**
 - Norco 325 mg-5 mg oral tablet** - 1 tab(s) orally every 6 hours, As Needed- PRN
breakthrough pain
Last Dose Taken: 02-13-2014 8:00 AM
 - anticonvulsants (central nervous system agents) (0/1 reconciled)**
 - gabapentin - orally**
Last Dose Taken: UNKNOWN UNKNOWN
? Needs follow up
 - antidepressants (psychotherapeutic agents) (0/1 reconciled)**
 - Paxil 40 mg oral tablet** - 1 tab(s) orally once a day
Last Dose Taken: 02-13-2014 8:00 AM
 - antidiabetic agents (metabolic agents) (0/1 reconciled)**
 - Lantus - 20 unit(s) subcutaneous once a day (at bedtime)**
Last Dose Taken: 02-12-2014 7:00 AM
